

Great udon noodles restaurant

Reviewed in November, 2018

Many of us came "Marugame Seimen" to eat on a Sunday in May. We really enjoyed our lunch. They have many varieties of udon noodles. For example, kitsune udon noodles and tanuki udon noodles ... etc. And there are two sizes of them, called "oomori" and "nami". Those udon noodles were so tasty. The noodles went down smooth, and the soup had a great flavor. The staff who work there were very friendly and efficient. The dish that I ordered then was served soon.

The price is low, so it is worth visiting if you are passing :)

Two of us came here to eat on Saturday in November. We enjoyed our lunch. They have plenty of Tapioca drinks. There are too many kind of flavors and also you can choose your favorite drink toppings. Drink was lovely and staff were hard-working. It was cheap and the resutaurant was trendy. You must visit if you are passing.

Good for family

I went to Denny's with my family on a Sunday for lunch.

We really enjoyed our lunch.

We ate pizza and sandwiches.

They have many kinds of Japanese and Italian foods.

Food was lovely and staff were polite and helpful.

Store is always sanitary.

It's well worth a visit.
