

# Team Building Activities!

Lindsay, Alicia, and Judas

# Commonality

---

- ALT and JTE will talk to each other and try to find a bunch of things they have in common.
  - The stranger, the better!
- Each ALT and JTE pair will share their answers with the group.
- For each commonality that **no one else** in the group has, you get 5 points. If other pairs share your commonality, you get one point.
- The 3 pairs with the most points win a Halloween treat!

# Catchphrase Round 1

— — —

- Using a random word generator (<https://www.thegamegal.com/word-generator/>), generate a word.
- Describe the word to your partner without saying it. Your team member(s) must guess your word.
- There is a 1 minute timer, then team members will switch roles.
- Try to be the team to guess the most words within the limit!

# Catchphrase Round 2

— — —

- Sitting in a group, a person will pull up a word and their team member must guess it. Once correctly guessed, the next team goes. Do rock paper scissors for who goes first! Turns rotate clockwise around the group.
- When the timer finishes, the team NOT guessing gets the point. The team to reach 10 points first wins!
